Speakers may provide a written copy of their testimony for inclusion in the record of the proceedings no later than Wednesday, December 17, 1997.

Written comments will be accepted by the PTO until December 10, 1997.

Written comments and transcripts of the hearing will be available for public inspection on or about Wednesday, January 7, 1998.

ADDRESSES: The hearing will be held on Wednesday, December 10, 1997, beginning at 9:00 a.m. in the Commissioner's Conference Room, located on the 9th floor of Crystal Park 2, 2121 Crystal Drive, Arlington, Virginia 22202.

Requests to testify should be sent to Ellen Seeherman by telephone at (703) 308-9300, ext. 206, by facsimile transmission at (703) 308-9333, or by mail marked to her attention and addressed to Assistant Commissioner for Trademarks, Box TTAB-No Fee, 2900 Crystal Drive, Arlington, Virginia 22202-3513.

FOR FURTHER INFORMATION CONTACT: Ellen J. Seeherman, Administrative Trademark Judge, Trademark Trial and Appeal Board, by telephone at (703) 308-9300, ext. 206, or by mail marked to her attention and addressed to Assistant Commissioner for Trademarks, Box TTAB-No Fee, 2900 Crystal Drive, Arlington, Virginia 22202-3513 or by facsimile transmission marked to her attention and sent to (703) 308-9333.

SUPPLEMENTARY INFORMATION: A notice of proposed rulemaking to amend certain rules governing practice before the Trademark Trial and Appeal Board was published in the Federal Register on June 5, 1997 (62 FR 30802) and in the Official Gazette on June 24, 1997 (1199 TMOG 88). A number of the comments made in response to that notice suggested that a public hearing be held on the proposed rules changes. Accordingly, the PTO has decided to hold a public hearing on the proposed rules changes on December 10, 1997. Moreover, some trade organizations expressed the concern that, because the comment period occurred during the summer months, some practitioners and other interested parties and entities were not aware of the proposed amendments. Accordingly, the PTO has decided to reopen the comment period. All comments previously submitted will be considered together with any additional written comments which are submitted by December 10, 1997.

It should be noted that, in view of the comments already received, the PTO has determined that it will not adopt the proposed changes to Sections 2.120(d) and 2.120(h) regarding limiting the number of requests for production of documents and the requests for admission which may be served.

Changes to Patent Practice and Procedure; Correction

The Patent and Trademark Office (PTO) published a notice of final rulemaking entitled "Changes to Patent Practice and Procedure" in the Official Gazette of October 21, 1997 (1203 Off. Gaz. Pat. Office 63). The comments on the changes to 37 CFR 1.16, 1.121, and 1.193 contained errors. In addition, the amendment to 37 CFR 1.17(q) contained a typographical error and the amendment to 37 CFR 1.121(a)(4) should have been withdrawn. This document clarifies the comments, corrects the typographical error, and removes the incorrect subsection.

In the "Changes to Patent Practice and Procedure" notice that was published in the Official Gazette of October 21, 1997 (1203 Off. Gaz. Pat. Office 63), make the following changes:

1. On page 65, second column, lines 8-10, delete the following sentence:

> Section 1.16 is amended to add new paragraphs (m) and (n) including the unassociated text following paragraphs (d) and (l).

2. On page 82, first column, lines 68-71, change the sentence--

> The ability to provide directions to the Office for the handwritten deletion of five words or less for each claim does not encompass deletion of equations, charts or other non-word material.

to--

> An equation, chart or other non-word material should **not** be amended by an instruction to delete (or add) only a part of the equation, chart, or non-word material. Rather, it should be amended by an instruction to delete the entire equation, chart, or non-word material and to add in its place the equation, chart or other non-word material to be substituted for the material that was deleted.

3. On page 82, second column, lines 7-11, delete the following paragraph:

> Paragraph (a)(4) of § 1.121 requires that any amendment presented in a substitute specification must be presented under the provision of this section either

prior to or concurrent with the submission of the substitute specification. The paragraph contains material from canceled § 1.115.

4. On page 94, second column, lines 33-35, change the sentences--

> Thus, the Office does not consider such a rejection to constitute a "new ground of rejection" within the meaning of § 1.193(b). Nevertheless, § 1.193(b)(2) . . . .

to--

> Thus, the Office does not consider such a rejection to constitute a "new ground of rejection" within the meaning of § 1.193(a). Nevertheless, § 1.193(a)(2) . . . .

Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI³) in Sunnyvale, California.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:

(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).

(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).

(3) All design patents are granted for a term of 14 years from the date of the grant.

However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
